Grp Capt J Fynes RAF (Retd)

Having been delighted with the education and pastoral care my two sons received during their time as boarders, I was keen to join the Board to help maintain the special Bedstone ethos whilst ensuring the college continues to develop.

Recently completing 35 years in the RAF, I now have enough time to undertake the role of Chairman, providing the vital working link between Board and Headmaster. As Chairman it is my task to ensure the Board develops the strategy for Bedstone whilst allowing the Headmaster and his Senior Management Team to run the school.

Our over-arching aim is to ensure that every student achieves what they are capable of whilst developing a rounded individual with the confidence to mix in any society.
