

## Boarders Encounter Sharks!

Many of Bedstone and Rutter House boarders enjoyed the weekend trip out to the National Sea Life Centre in Birmingham last Sunday. For some of the boarders it was their first experience encountering the hammerhead shark in which Dominic and Archie took a phenomenal amount of photographs. Bronwyn who claims she hated sharks now says that the hammerhead was her favourite mammal now that she has seen them. Santiago Maestro enjoyed walking through the Ocean Tunnel where large turtles, sharks and other fish swam above. However, the highlight for many of the boarders was the new sensational 4D Cinema with special effects which sprayed wind and bubbles at many of the boarders, who couldn't wait to go back in for a second time despite how wet they had got.

"My favourite thing about the Sea Life Centre was the baby turtles. They were so cute, in fact I wanted to take one home!" **Charlotte Herdman**

"We went to the Sea Life Centre with Miss Flies and Miss Meras. We saw a 4D film that was amazing. I think the best is at the end because you walk through a corridor under the water and we can see the fish. I also enjoyed the corridor with all the mirrors as you didn't know what part to go through. It was really good." **Santiago Maestro**

"I liked the Sea Life Centre as I want to be a Marine Biologist. The tunnel was amazing as I saw many different types of fish and sharks. I got some good pictures of the hammerhead shark. I also liked the rays and saw them get fed. There were many experiences on this trip. And I am definitely going back again." **Dominic Finley**

"A group of us from Bedstone College went to the Sea Life Centre in the city of Birmingham. My favourite animal was the Hammerhead Shark even though I hate sharks! There was a sting-ray and it swam up to the barrier and it looked like it wanted to kiss me!" **Bronwyn Williams**
